SAMHSA Evaluation Goal

“The goal of the GLS Youth Suicide Prevention programs and the NSPL is the reduction of suicide and suicide attempts across America. In order to accomplish this critical, lifesaving work, it is essential that the effectiveness of these programs be evaluated on an ongoing basis, with implementation of suicide prevention programs continually informed by evaluation results”

EVALUATION QUESTIONS

Evaluation Questions	Study
EQ 1: Are certain training approaches effective in building capacity to increase youth identification (when compared with more basic trainings)?	Training Study
EQ 2: Are GLS prevention activities effective in developing continuity of care from identification, to referral of youth at risk for suicide, to the provision of needed services?	Continuity of Care Study
EQ 3: To what extent are grantees and associated providers implementing suicide safer environment/Zero Suicide frameworks? Does this framework implementation lead to decreases in suicide attempts and completions?	Suicide Safer Environment Study

PREVENTION STRATEGIES INVENTORY (PSI)

Purpose

- Strategies: Inventory of all prevention strategies and products that are a part of grantee GLS funded programs
- Expenditures: Total amount of GLS funds (including match and in-kind) expended to date, and the percent of funds expended to date by strategy

PREVENTION STRATEGIES INVENTORY (PSI)

- **Strategies Budget Expenditure**

- Direct costs that you can map to each category (including staff time)
- Aim to account for at least 75% of your expenditures

When will the SBHF be administered?	Annually, during the late spring/early summer

INSTITUTIONAL REVIEW BOARD (IRB) PROCESSES

Levels of IRB Review

*Defined by federal regulation (45 CFR 46)

ROLE OF THE IRB

Protect the rights and welfare of individual research subjects and ensure:

- Risk to subjects are minimized and reasonable in relation to anticipated benefits
- Selection of subjects is fair
- Informed consent is appropriately documented
- When appropriate, the research plan makes provisions for monitoring data collection
- Privacy and confidentiality of research subjects is appropriately protected

ROLES AND RESPONSIBILITIES

- ICF's IRB reviews the National Outcomes Evaluation protocol and provides approval for ICF to conduct the State/Tribal and Campus evaluations
- Grantee IRB (or appropriate entity) reviews relevant National Outcomes Evaluation data collection activities before grantee can participate/submit data and either
 - Provides IRB approval
 - Determines monitoring is not required by the grantee IRB (i.e., determines data collection is exempt from IRB approval)

IRB PROCESSES

IRB Preparation

Determine what approval(s) are needed to participate in the NOE:

- Campus IRB

ICF will provide materials and technical assistance to help with your local application

IRB Submission

Submit local IRB application, which may require:

- Objective of the study and instruments used
- Respondents (how many, who)
- Risk to human subjects
- Data collection methods

Update ICF

Once the review is complete, grantees **must submit documentation** of the determination (e.g., IRB approval or exempt from IRB approval) to **Connie.Maples@icf.com**

Keep IRB Status Current

- Update your local IRB about data collection revisions (via amendments)
- Know your local IRB requirements for renewal

Submit renewals to Connie.Maples@icf.com

NEXT STEP

Prepare your IRB package and submit for approval ASAP!

Grantees are expected to have notification of approval or exemption by mid-January, 2018.

Welcome to the SPDC

The Suicide Prevention Data Center (SPDC) is an online data collection and management system to support Garrett Lee Smith (GLS) Youth Suicide Prevention and Early Intervention Program grantees in implementing the cross-site evaluation as required by the Garrett Lee Smith Memorial Act (GLSMA). The SPDC is a mechanism for communicating evaluation activities, managing and storing data, and disseminating evaluation findings. The SPDC provides necessary resources to grantees and supports them in implementing the cross-site evaluation. Additionally, the SPDC is a resource for other GLS project stakeholders.

Background about the GLS program

The GLSMA, signed into law in October 2004, was the first legislation to provide funding specifically for youth suicide prevention programs. Under this legislation, funding was set aside for campuses, states, tribes and US territories to develop, evaluate, and improve early intervention and suicide prevention programs. This funding appropriation authorizes the GLS Suicide Prevention Program, which is administered by SAMHSA's Center for Mental Health Services (CMHS). There are currently 104 GLS grantees funded: 59 campus grantees and 45 state and tribal grantees.

On this site you can:

- create customizable [data summaries](#),
- review [descriptions of evaluation data](#) available by request,
- and request access to the [raw data](#).

"Because of the tragic prevalence of suicidal ideation in American Indian and Alaska Native (AI/AN) communities, SAMHSA awarded a large proportion of GLS grants to AI/AN communities. Many Tribal communities have a history of distrust resulting from the use of their community data to gain media attention and at times grant funding for programs that do not serve their community members. Often community members become opposed to all data gathering activities based on their experiences with how the data was misused in the past. Even when re-assured that funding is being used in certain ways, people may distrust the intent based on past and current experiences in the community. Please use these data carefully and with respect." ~Adapted from Caroline Cruz, EagleCruz Consulting Â© by Jannae Parrot, author of the Oregon's Tribal Needs Assessment Workbook, prepared for the State of Oregon, 2012, with minor changes by the Life is Sacred Native Youth Suicide Prevention Program Evaluation Team.
