HISTORY

Launched publicly in 2016, CVN was created to serve post-9/11 veterans and their families through client-centered, customized outpatient care at our **Steven A. Cohen Military Family Clinics.**

The 501(c)(3) nonprofit clinically integrated health system supports the veteran community as they begin their next mission: healthy and happy lives.

MISSION

The Cohen Veterans Network's mission is to improve the quality of life for post-9/11 veterans and their families by providing **low to no cost, high-quality, accessible, and integrated mental health care**. Through a network of outpatient mental health clinics, trained clinicians deliver **holistic evidence-based care** to treat mental health conditions, while destigmatizing mental health treatment.

Our **Cohen Clinics** provide an innovative model to the industry:

- Access is our top priority, with short wait times and same day care
- Low to no cost for treatment
- For veterans, family members, caregivers, and children
- Regardless of discharge status and combat experience
- Confidential care
- Telehealth available
- Referral support for unemployment, housing, finances, etc.
